SUPPLEMENTAL AMENDMENT

TECH CENTER 1600/2900

Responsive to the Office Communication mailed January 23, 2003, please consider the following amendments and remarks.

In the Claims:

Please amend claim 21 as follows:

21. (Once amended) A host cell transformed with an expression vector comprising a
nucleic acid encoding a polypeptide comprising the amino acid sequence of SEQ ID NO: 1 or SEQ ID
NO: 3.

REMARKS

According to the Office Communication mailed on January 23, 2003, and setting a one month term, the Amendment filed on November 13, 2002 (Paper No. 27) was regarded as non-responsive, since the marked up copy of claim 21 filed to indicate the deletion of the phrase ", or progeny thereof." The present Supplemental Amendment serves to correct this inadvertent error.
